ASK YOUR TOWN TO TAKE ACTION!

Ten Actions That Your Town Can Take to Reduce Their Greenhouse Gases (GHGs)

MOVE AWAY FROM FOSSIL FUELS

1. Terminate fossil fuel **purchase contracts**. Enter only into renewable energy contracts.
2. Permit **new construction** only without fossil fuel energy.

ELECTRIFY BUILDINGS

3. Retrofit or build **municipal structures** for renewable energy supply and energy efficiency. Install solar PV systems.
4. Require, or create incentives for, retrofit of **private buildings** for renewable energy supply and energy efficiency.
5. Offer incentives for and facilitate residential neighborhood and commercial **rooftop solar**.
6. Offer **community solar** programs to enable renters/low-income persons to enjoy benefits of low-cost renewable energy.

ELECTRIFY VEHICLES

7. Replace fossil fuel **municipal vehicles** with renewable energy powered vehicles.
8. Install, or incentivize the installation of, **EV charging** stations to public and private parking lots and convenient locations.
9. Offer incentives and rebates for **EV and electric appliance** purchases.

REDUCE VEHICLE USE

10. Reduce vehicle miles traveled **(VMT)** by planning measures and incentives to use public transportation.
