Clean Air Council reports Chester corridor air is generally good to moderate

November 12, 2026

The Delaware County arm of the Clear Air Council has issued its final report on the Chester-Marcus Hook corridor air monitoring program, which shows that air quality in the area of its 30 monitors remains either good or moderate over time except when the area experiences wildfire fallout, and then it veers to the worst rating of “hazardous.”

PA Democratic legislators want to move fast on clean energy, data centers, costs

November 12, 2026
The Democrats' sweeping success at the national level in last week's midterms was mirrored in major swings at the state level as well. In Pennsylvania, where Democrats flipped the state Senate, the party will control both chambers of the legislature and the governor's office for the first time since 1993.

Major update on Save the Mozino Forest

November 11, 2026
The Save the Mozino Forest organization reports two new developments. The developer has filed an application for a permit to build 51 single-family homes and he has given the group one year to raise the funds to buy the tract from him and preserve it instead.

Radnor School District seeking 8 propane school buses

November 10, 2026
The Radnor School District is taking part in an alternative-fuels initiative to replace eight school buses with propane-fueled buses, both to save money over the long term and to substantially reduce air pollution emissions.

Pennsylvania Legislature Is Losing Its Climate Champion

November 10, 2026
After more than 30 years of championing the state's environment, PA representative Greg Vitali is stepping down from his seat on Dec. 31. The Haverford Democrat lost to a primary challenger last May who has since won the general election and will be replacing him in the new legislative session.

PA comment period ends Nov. 24 on lead and copper limits in drinking water

November 10, 2026
The public has only until Nov. 24 to submit comments on an extensive proposed rule to bring the state's standards up to the level of the federal government with regard to limiting the amount of lead and copper that can be permitted in public drinking water systems.

Water and land referendum a huge winner in 2026 midterm Election

November 4, 2026
The referendum to protect Delaware County water, land and wildlife was a huge winner in the midterm election, getting 171,131 unofficial yes votes (75.6% of the vote) to 55,249 (24.4%) unofficial no votes. The referendum spectacularly outperformed its pre-campaign polling that had suggested in might win by a 60% to 40% yes vote.
